Complications between Austria and Russia threatened.

ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Vienna 16th.

The Hospodar of Bulgaria appealed to the Sublime Porte for help to repel the Servians, but the Sultan refused to interfere.

London 16th.

Telegrams from Athens announce active war preparations all over Greece.

Rome 16th.

The International Congress for the study of prisons met to-day. Mancini ex-Secretary of Foreign Affairs of the Italian Government, was appointed chairman.

Paris 16th.

The Prime Minister declared to the chambers to-day that the Government was determined to keep Annam and Tonkin, and to ask for fresh credits to complete the conquest of Madagascar.

Vienna 17th.

A Belgrade telegram states that the Bulgarian troops were completely routed in an encounter with the Servians.

PRESS TELEGRAMS

Constantinople 16th—The Cabinet assembled yesterday to discuss the Bulgarian situation.

Another contract has been made with the Austrian Lloyd for the transport of 30 battalions from Asia Minor to European Turkey.

Lord Salisbury has telegraphed to the British Ambassador in this city to assure the Sultan that he will do everything in his power to maintain the integrity of Turkey.

San Lorenzo (California) 16th—The workmen have visited the various fabrics of the city, and persuaded the proprietors to expel the Chinese employees.

Santa Cruz (California) 16th—An anti-Chinese meeting was held yesterday at which it was decided not to allow Chinese emigration to the country.

Salonica 16th—Extraordinary war preparations are being carried out, horses, cannons, and soldiers are daily sent to the Greek frontier.

Rutchuck 16th—The Russian Consul in this city has received orders to at once withdraw.

Five millions of cartridges have been received. The soldiers of the national guard have been recalled.

St. Petersburg 16th—The Russian papers, without distinction of political parties, condemn a Servia-Bulgarian war, which could or would involve the interference of Russia.

Rioja 17th—Yesterday a most interesting ceremony took place, the proclamation of Dr. Juarez Celman to the Presidency of the Republic. The demonstration comprised two clubs, one of the "jovenes distinguidos" and the other 'Gremio de Artezanos,' althought, the object and even the motives of such a distinction, where little or no difference exists, may not be well understood. Much enthusiasm prevailed and the two socially distinct parties mingled then cheers for Roca, Celman and Cambaceres.

Montevideo, 17th—Mr Anthony Vidal, brother of the ex-president, died this morning. His loss will be much felt, as he was universally esteemed.

The death is announced of Adrian Torres, from the effects of the wounds he inflicted on himself the other day in his attempt to commit suicide.

Mr Francisco Peria, the well-known auctioneer, leaves this evening for Buenos Aires. The object of his trip is not known, but it is supposed to be related with some land-business.

The programme for the inauguration of the Lira, first Conservatory of the Plate, has been published and is very attractive. The Concert-Hall of the Lira is immense and can easily hold 1500 people, and is in the form of an amphitheatre.

The steamer Comte d'Eu arrived today from Havre. The Silex sails this evening for Buenos Aires.

Lujan, 17th—Several engineers arrived yesterday, including the Engineer-in-Chief M Nadaillac, for the purpose of tracing the Provincial roads and building a bridge.

Valparaiso, 17th—The market remains as dull at ever. Imports are not brisk. The Alexander has arrived from Rio de Janeiro, the River Thames from Buenos Aires, and the Louise from Bahia Blanca.

Exchange in London is quoted 24⅜d; on Paris 2 frs. 58; on Hamburg 2.11. Exchange on Buenos Aires 54 cents gold per $1 paper. Premium on gold 90 per cent.

The Cotopaxi left on Saturday for the Plate: Mr Calvo, Argentine Minister in Paraguay, is on board this steamer, which takes a cargo of new copper for Liverpool.

THE BULGARO-SERVIAN WAR.

In the palmy days of Napoleon's reign, when France was yet flushed with the cheap laurels of Magenta and Solferino, a cannon-shot could not be fired on the Continent without a nod from the Tuilleries. We had grown into the belief that Bismarck had assumed the mantle of the vanquished at Sedan and that he had chained the dogs of war to his Krupp guns, but the sudden turn of events in the Balkans shews how brittle the political situation is when the King of Servia and the Hospodar of Bulgaria can seize each other by the throat and imperil the peace of all Europe.

The progeny of the Sick Man have inherited his quarrelsome and garrulous disposition; not satisfied with the generosity of the Great Powers, who distributed amon gst them the fair territory between the Balkans and the Danube, they are now encroaching on the property of their lord paramount and fighting between themselves for further aggrandisement. These petty squabblers are all jealous of each other and, although launched into the world of nations only the other day, they have not lost time in working up a military organization and arming to the teeth, to such an extent that Servia can at a moment's notice put 50.000 men in the field, Bulgaria nearly as many, Greece 70,000 and so on.

Bulgaria claims East Roumelia; Greece pretends that all Macedonia belongs to her; Montenegro wants part of Albania; and the Servian Minister in London cooly asserts that his Government must immediately lay hands on the North of Macedonia, on the plea that it is historically Servian. The latest clap trap of the Servian Government is the balance of power in the Balkans.

The Sublime Porte is afraid of invading Bulgaria, as this would be a direct blow to Russia, of intimidating Servia for fear of offending Austria, or of using any violent means with the other petty states as, this would be throwing fat into the fire. The Turkish Government has made a European question of the matter by throwing itself into the arms of the great Powers. The Constantinople Conference has been a farce; viewed in the light of Havas telegrams, the members of the Conference are groping in the dark and only fanning the blaze by their lukewarm proceedings.

Meantime, King Milan of Servia formally declares war and attacks Bulgaria. By this time, Widdin and Sophia will be in the hands of the Servians, and the difficulty will no longer be one between the two belligerents, or with the Sublime Porte, but a very serious question between Austria and Russia.

Servia is the protegie of Austria, King Milan is a mere tool of the Hapsburgs; Austria has millions of Servian subjects, and Servia is her great bulwark in the Balkans. Should she fail to support Servia, Austria would forfeit the allegance of her Bosnian subjects who are all Servian in sentiment.

There is not the remotest shadow of doubt that if Servia is the pivot of Austria, Bulgaria is the foothold of Russia in the Turkish peninsula. In our numerons correspondences from Paris we have lately described Bulgaria and the varied Russian influences in her Government and social system. The Russians will not leave the Bulgarians in the lurch, and here begins the great struggle between Austria and Russia, between the Slavs of the North and South, a struggle that promises to be terrible, in view of the hatred of race enhanced by jealousy of power. The war-clouds that are looming in the horizon may be delayed, but the storm between Russia and Austria will burst before Spring. What part Bismarck is playing in this question, it is difficult to say; but in all probability he favours his old ally Austria.

The general elections, which come off at present in the United Kingdom, the results of which are not yet known, may have a decided influence in European politics. If the Radicals and Liberals get in, Great Britain will keep clear of foreign alliances, but if the Tories are returned, the plausibility of an alliance with Austria and Germany may again be ventilated. It is a difficult task to deal with these questions, at this distance from the scene of action; but to judge by the tenor of the British Press and recent telegraphic advices, Europe is on the eve of great events.

FIRE IN BARRACAS AL SUD.

On Monday night one of the most dreadful fires ever witnessed in this city destroyed the magnificent soap and candle factory of Messrs Daul and Co. These gentlemen, only a few hours before, had been awarded the gold medal of the Mendoza Exhibition, and it was, we may say, in the midst of rejoicings and at a moment when the future appeared of a golden hue both to the workmen and the owners of the establishment, that this dreadful calamity swept down to destroy one of the most costly and prosperous factories in the Republic.

Before entering into the details of the catastrophe and enumerating the victims and losses involved in so unexpected a disaster, a few words as to the situation, area, etc, etc., of the immense property upon which the factory stood, will not be out of place. The property is situated most advantageously, at the corner of two streets, Calles Libertad and Colon, and having a considerable frontage on both. The area is 13,500 square metres and the depth of the "finca" is 215 metres. At the angle formed by the meeting of the two streets a fine building rose, serving for the joint purpose of residence to the manager and offices to the clerks. A 'patio' lies adjacent to this house, and to the left of the 'patio' are a suite of rooms comprising the laboratory for chemical analyses. Next comes the Boiler-room, 27 metres long by 14 in width. The walls and floor are of stone and must have cost much, and the roof is supported by immense iron girders. The room contains two large boilers, of 10 horse-power each, which are of the best make, coming from the 'ateliers' of the Societe Centrale de Bantin, near Paris. A little further on are two copper soap vats, 3 centimetres in thickness, 3 metres in height with a diameter of one metre. These apparatuses work at a high pressure and are solidly fixed to the stone floor. They can resist 25 atmospheres. A large copper tube, an immense copper tank, and three machines, the names of which although they do not escape our memory would puzzle the general reader, complete the description of this room.

At about 6.15 p.m. the operatives in the room were startled by the shrill whistle from one of the boilers. A circumstance of so unusual occurence, at that hour, aroused the misgivings of some, caused the flight of others, and spread general alarm. Ten minutes elapsed and a terrific explosion, accompanied by a deafening report, shook the solid building to the very foundations, scattered fire in all directions, and sounded the alarm all over the neighbourhood. The flames soon spread over the room, and at the end of a few minutes the factory was one mass of fire.

The Barracas railway sent their fire-engine, and later on that of the Sola Works arrived on the scene, but the combined efforts of the employees of the factory and the railway, of the police and of the Municipal 'peones,' were powerless to arrest the progress of the fire. However, at 7 p.m. the firemen fully equipped arrived on the scene of the disaster, and soon gained a decided advantage over the flames, which were totally extinguished at about 10 a.m. At one moment, nevertheless, a loud whistle from the chief boiler, which had been working in the roon unimpaired and until then untouched by the flames, showed the situation to be extremely perilous, for the explosion of so powerful a machine would certainly have not only completed the vast work of destination, but involved in one horrible death most of the firemen and persons that surrounded the building. The commander of the Bomberos, taking in at a glance the extent of the danger, gave orders for an immediate retreat, which was effected at the first sound of the bugle. The shrill whistle of the boiler continued, a terrible menace to the firemen, and the pressure at that moment must have been 120,000 lbs. Very fortunately, an unforeseen and providential occurrence saved the factory from certain destruction: one of the tubes of the boiler burst under this terrible pressure and the compressed steam escaped with a horrible hissing. Commander Calaza returned to the attack, and his brave men continued to oppose the progress of the fire.

Three men were killed and two wounded in the catastrophe. Dujardin, a Frenchman, 40 years of age, father of ten sons, was found horribly burnt, his face one mass of raw flesh, at the door of the boiler-room. His last words were an appeal in favor of the numerous family his death would leave destitute. The unfortunate father was not aware that one of his sons was also a victim. José el Catalan, as he was called, 24 years of age, and Pablo Pervier, aged 19, were likewise covered with the most repulsive and dreadful burns.

At 10 o'clock, as already stated, the fire was completely extinguished. Several of the 'bomberos' were slightly burnt, but no serious accident impeded the accomplishment of their task. Perhaps one of the most unfortunate circumstances was the fact that the owners of the factory had not insured their premises, although two days previous to the disaster they had decided to do so as soon as the premium on gold would fall. The losses are roughly estimated at $100,000.

RIO NEGRO LETTER.

Choel-e-Choel, Oct. 17th, 1885

Dear STANDARD

To various of your subscribers, who have been buying-up land here, this may prove a little interesting, thanks to the information afforded me by Mr Furques (the managing engineer of the celebrated Roca Canal). He tells me that lands above Roca are good and offer a splendid opening for speculators as long as present prices last, and as the odds are very much in favor of the officers' grants being measured out in the district I mention, he may have reason on his side, although personally I doubt it; good lands there are, but the question with speculators like our American Dentist, ought to be whether even at the highest price you quote, say $1,500 nats, it is worth their while to invest in what we would call in the old country a 'black swap.' In reality, the speculation only amounts to this, as the fact of the matter is that one man's allotment will have river frontage and another's be marked out on the mountains, or possibly in some "travesia" where, the purchase will prove utterly useless; however, I see by the papers that purchasers of officers' rights are abundant, and if Dn Ataliva Roca and the American Dentistical contingent burn their fingers, no Rio Negro settler will be surprised, "mais revenons á nos montous." Mr Furques, will be considered an authority in your city, although here he is considered as merely prejudiced on the subject of camps. He informs me that for agricultural purposes the camps situated above Roca are almost unequaled in the whole Republic, and as far as viticulture is concerned not even San Juan surpasses them. This is merely his private opinion, and I am bound to confess he has taken the initiative steps towards proving it true—or otherwise—as he has imported and planted no less than (25,000) twenty five thousand vines from Chile. The result remains to be seen as yet, but I with many others believe that said result will be a total failure. Nevertheless, all interested fronterians would be only too glad to see him figure as the Pioneer of a new industry for Patagonia, and I am confident that Rio Negro settlers will congratulate Mr F. heartily should his daring scheme prove a success, and in case of failure, condole with him equally sincerely.

I rather think that those well-known gentlemen of 18 years experience of this frontier—Messrs. Kincaid—once went in for the same business and in the 1879 floods lost all their 60,000 vines; grapes grow peculiarly well in Patagones proper, and at Balclutha, Messrs Kincaid's establishment, they offer a possible future to an enterprising man; but in Roca, where Mr Furques has established his 'chateau,' the question is a horse of an entirely different colour, principally because, let the canal give even as good a result in irrigation as too sanguine Mr Furques expects, Roca lands will always be inferior in quality to the others I mentioned above.

In ré Roca immigrants I have heard so many and varied reports that I do not think it wise to forward you any of them. My own conclusion is that the whole question has been grossely mismanaged and shamefully neglected, and I should advise Colonel Godoy to see into the matter immediately on his arrival, if he is desirous of retaining the good character he has already gained in Roca. I had entertained the idea of giving you a few sketches of the principal camps on the river coast—from Patagones to Roca—but as I am obliged in my own interest to leave here for good, as it were, I must confine my remarks on this subject to the smallest possible space. For 8leagues out of Patagones, artists or millers would find themselvers interested in the only mill on the coast line, which reminds one forcibly of the old-fashioned arrangements for reducing wheat to flour, once so general and now so scarce in Great Britain; picturesque in the extreme is this mill, and an English visitor on seeing it would at once recall old and similar scenes in our bonny isles, and involuntarily recollect on the appearance of "Maraspino" (the miller) our good old ballad. 'The Miller of the Dee' and the more modern 'Maraspino' of "Giroflé, Girofiá."

This mill is not without a certain history as in one epoch two or three Britons were about to buy it. For a matter of 4 to 5 leagues the traveller is unable to get a drink 'á son gout' after leaving the mill, but then he arrives at an establishment known as the "China Muerta," recognized as the property of Don Luis Fauton; this estancia extends over some 2 to 3 leagues of camp, and in wet weather is very suitable for sheepfarming, beyond this fact an impartial observer can say nothing more in its favor. The same farm is a ranch of the simplest description, and were it not that on the camp there is an 'esquina' it would probably attract no attention, unless it were for the fact that early in last year the proprietor bought for a matter of, I believe nearly $500,000 m/c per league.

A further gallop of say 8 leagues takes one through the 'Guardia Pringles' or 'Mitre,' and terminates in 'Balclutta,' the property of the brothers Kincaid (the oldest settlers on the Rio Negro an establishment, that in point of comfort and excellence is only surpassed by that of Comdte. Belisle. Kincaid's camp is composed, (exclusive of the island of 'Sauce Blanco', to which I believe they have the strongest claim) of some leagues with river frontage, well managed, hospitable and picturesque, as the establishment is it is only natural that it should be popular, and such it is in every sense of the word.

The Meath, Dalton and Senegal's Mails.

London, Oct. 19th.

A telegram from our Simla Correspondent states that the Indian Government has sent the Ultimatum to King Theebaw. Arrangements are being made to reinforce the garrisons in British Burmah.

We learn from Sofia that a Collective Note of the Powers has been handed to the Bulgarian Government. The Note states that the Powers have resolve to accede to the request of the Sultan for assistance to quell the agitation which now disturbs one province of his Empire. The leaders of the Bulgarian forces are requested to avoid concentrating troops on the Roumelian frontier and to suspend their military preparations. In conclusion a warning is given to the Bulgarian people not to be heedlessly led away, as they themselves would have to suffer the consequences. After mature consideration the Bulgarian Government has decided to accept the advice of the Powers, and to recall the greater part of its troops, leaving only a small garrison, pending the definitive decision with regard to Roumelia.

Our Vienna Correspondent says it is stated that the advance of the Servian troops has been retarded because negotiations are taking place between Servia and Bulgaria respecting the regulation of the frontier.

A telegram from Belgrade states that the Servian troops have occupied the Kosiak Pass, on the Bulgaro-Macedonian frontier and partly in Turkish territory.

Our Constantinople Correspondent telegraphs that the Turkish Council of Ministers considers the Note of the Powers in reference to Bulgaria vague and unsatisfactory. While the Sultan's rights are recognised, and the conduct of Prince Alexander is condemned, the recommendation to the Porte to display moderation looks, it is thought, like a command not to fight. During the week, our Correspondent adds, the Porte has made military preparations which for the first time appear to indicate an intention to march into Roumelia.

Our Berlin Correspondent telegraphs that the meeting of the definitive Conference as proposed by Russia is now considered assured, and that there is more confidence in the maintenance of peace than has been felt for several days past.

A telegram from Philippopolis contradicts the report circulated in Athens that Prince Alexander was marching towards Adrianople.

A telegram from our Correspondent at Copenhagen states that the Czar left there yesterday afternoon for St. Petersburg.

According to a telegram published by the Paris *Univers* 7,000 native Christians, ten native priests, and a missionary have been massacred in Annam.

Yesterday the second ballots of the elections took place in Paris and throughout France.

Lord Rosebery was on Saturday presented with the freedom of Kilmarnock. Subsequently he unveiled a monument to the Kilmarnock political reformers. After delivering a speech in which he spoke of the necessity of endeavouring to redress the inequality of human conditions, he drove to the Art Museum, to lay the foundation.

Mr. Childers, speaking at an open-air meeting at Orton-park, near Peterborough, on Saturday, alluded to the importance of checking obstruction in the House of Commons. With regard to the legislation of the future, he spoke of the urgent need for amending the law regarding the tenure and transfer of land, and the passing of a good scheme of local government. Mr. Childers also indicated some of the advantages which working men have gained under the system of Free Trade.

Mr. Trevelyan, speaking on Saturday at Taunton, gave an emphatic denial to a statement that the condition of Ireland had undoubtedly improved since Mr. Gladstone's retirement from office. Mr. Trevelyan asserted that Lord Salisbury's statement that the discreditable and dangerous condition of Ireland grew up under Lord Spencer's administration was totally devoid of foundation. He maintained that the prosecutions that were pending for boycotting would not proceed, and that to try boycotting cases before common juries in their own neighbourhood would prove a cruel farce.

Addressing a large meeting at Reading on Saturday evening, Mr. Shaw Lefevre spoke against the renewal of the Crimes Act. Referring to the necessity for amending the land laws, he said that a genuine reform could not be expected from the Lord Chancellor, whom he described as a retrograde and obstinate old Tory. Mr. Shaw Lefevre also spoke in favour of free education.

Mr. Samuel Morley, M.P., on Saturday laid the memorial stone of a new hall which is being erected at Tottenham for the Blue Ribbon Gospel Temperance Mission. In the course of a speech, he said that the great want of the day was more sympathy between the different classes. He had no doubt that a very large portion of the misery of the London poor was self-inflicted, and that to an immense extent it was the result of indulgence in drink.

There were special services in the French Protestant churches in London yesterday to celebrate the bicentenary of the revocation of the Edict of Nantes. Sermons were also preached in Canterbury Cathedral, in the afternoon by the Dean, and in the evening by Canon Fremantle.

In connection with the boycotting of the Cork Steam Packet Company by the Cattle Trade Association, a meeting of the Defence Union was held at Cork on Saturday. Great unanimity was shown with regard to the necessity of resisting the association, and a belief prevails that the Defence Union will soon be able to ship as many cattle as were sent over before the association decided to boycott the company.

During a dense fog on Saturday evening the Violet, one of the express steamers of the London and North Western Railway Company, grounded in the Liffey. The passengers and luggage were transferred to a tug, and in the evening the Violet was floated without, it is believed, having sustained any damage.

From Bombay our Correspondent telegraphs that, in answer to the Russian overtures made to him at Cabul, the Ameer has stated that he adheres to the pledges he has made to the British Government.

Our Calcutta Correspondent telegraphs that great uneasiness is reported from Mandalay, and active preparations for defence are being made by the Burmese.

A report was published in Vienna that Servia had commenced operations against Bulgaria, and that some of her troops stationed near Nisch had crossed the boundary.

Our Cairo Correspondent transmits a rumour to the effect that a skirmish has taken place near Akasheb, which resulted in the driving in of our outposts by the rebels.

A large portion of the police barracks at Leghorn was blown up by dynamite, fortunately without injuring anyone.

The death is announced of Field Marshal Lord Strathnairn, in his eighth-third year. He was better known as Sir Hugh Rose, under which name he commanded the Central India field force during the Mutiny, and was subsequently Commander in Chief in India.

Lord Granville moved a resolution at a meeting at the Mansion House in favour of the provision of asnational memorial of the late Lord Shafterbury. The noble Earl paid an eloquent tribute to the life of the deceased philanthropist, and related some personal recollections. The resolution was adopted, and a Committee nominated to carry it out.

The Marquess of Ripon, at a banquet given by the Mayor of Ripon last evening, earnestly deprecated the annexation of Burmah, if war should unhappily break out with King Theebaw. There were seueral Burmese Princes in India, one of whom might be placed on the throne, and with him we could make a satisfactory Treaty. The annexation of Upper Burmah would make our boundary conterminous for long distances with China on the one hand, and with France, in Tonquin, on the other; and it was very desirable that there should be a buffer between us and those countries in the shape of an independent State. Besides, a declaration that we did not mean to annex Burmah would have an excellent effect on the Native Princes of India.

Sir C. Dilke, speaking at Notting-hill, said one part of the work of the Berlin Conference was blundered in the highest degree. The division of Bulgaria was a foolish arrangement, which could not last. The probability of Greece seeking compensation could not be overlooked, and he thought she would seek for it in the direction of Janina. If these questions were reopened, the questions of Crete and Macedonia would also be reopened. If concerted Europe could act together, it should prevent such a calamity as an attack by Servia upon Bulgaria.

Calcutta, Tuesday.

The general opinion at Rangoon is that before an ultimatum is sent the troops in the province should be reinforced. One thousand two hundred European and 2,500 Madras Infantry soldiers are there, all seasoned troops, in a high state of efficiency. If these were available for active operations they would be sufficient to capture Mandalay and dethrone Theebaw in one week. But for the garrisoning of the province and the protection of the extended frontier 5,000 more men are required. General anxiety is felt that some decided course should be immediately adopted. Trade is greatly injured by the present condition of affairs. The Italian Consul at Mandalay has sent his family to Rangoon, and the Europeans in Upper Burmah are following his example.

The British and native troops at present located in British Burmah, and who are available for operations against King Theebaw, consist of the following:—Four batteries of artillery, with ten mountain guns, 451 British non-commissioned officers, 1,819 British infantry, 164 native sappers and miners and 3,200 native infantry. Major-General Buck, C.B., is in command. It is considered by the military authorities at home that this force is not sufficient to engage King Theebaw's troops, which stand well to their guns. It is believed that 4,000 men will be required for active offensive operations, and at least 3,000 must be left for garrison duty in British Burmah.

Mr. James Ernest Spencer, Conservative candidate for West Bromwich, opened his campaign on Monday night in the Hill Top Ward. A vote of confidence in Mr. Spencer was about to be put to the vote, when a Mr. Richards a well-known Radical, jumped on the platform, but was promptly pulled down. A free fight followed for half an hour, the police being powerless to prevent several persons being injured The meeting broke up in disorder.

Information from Lloyd's states that the splendid iron ship Ellora, 1,727 tons register' Captain Toms, which sailed from Calcutta for London on the 20th March last, has been given up as lost. Since the vessel left the mouth of the Hooghly, where she discharged her pilot, nothing has been seen or heard of her, and, as she is three months overdue, all hopes of her safety are abandoned by the underwriters. Her cargo consisted of wheat, indigo, tea, and other produce, valued at £30,000. The crew numbered 40 hands, all of whom have perished.

The express train by which the Duchess of Edinburgh, with the Countess Erbach-Battenberg, returned from Heidelberg met with an accident on Monday near Darmstadt by collision with the rear of a goods train. None of the passengers suffered injury, although several luggage wagons were wrecked. The Duke of Edinburgh received the Duchess at Darmstadt, intending to proceed to Cologne with her, but in consequence of the accident they remained for the night at the Grand Ducal Castle.

The following letter has been received from Lord Salisbury by a gentleman in Dublin, who had inquired of his lordship respecting the date of the general election:—

"Hatfield-house, Oct. 10th.

"Sir,—I am directed by the Marquis of Salisbury to acknowledge the receipt of your letter of the 7th instant, and to say, in reply, that the general election will probably take place about the 17th November, as formerly announced by him. I am &c.,

"*R. T. Gunton.*"

On the Stock Exchange on Saturday business was very much restricted except in the American department, where another substantial advance was shown in prices. British railways were steady, while Consols declined 1-16, to 100⅛ to 100¼. Grand Trunk of Canada stocks receded. Mexican railways were quiet but dull, while foreign Government stocks improved, except Peru issues, which were sold to realise. At the Bank the sum of £259,000 in Russian coin was sold.

THE NEW ENGLISH CHURCH AT COPENHAGEN.

The ceremony of laying the foundation-stone of the new English church took place according to the published programme. The proceedings commenced with the singing of a hymn, after which the Prince and Princess of Wales, accompanied by their three daughters, advanced to the foundation-stone, which was suspended over the spot where it was to be placed. The architect of the sacred edifice then presented a silver trowel to the Princess, and, the stone having been lowered, her Royal Highness laid some mortar round the edges.

The Hon. E. Monson, the British Minister, then delivered a short speech. He said that occasions like the present contributed more to the union of the two nations than might be imagined, and expressed the hope that existing friendship between England and Denmark would long continue.

The Prince of Wales delivered an address, in the course of which he thanked those who had contributed towards the cost of the church, especially the countrymen of the Princess of Wales, and also the Danish authorities for their cordial assistance.

In a cavity of the foundation-stone a number of English and Danish coins were deposited, together with a parchment containing the names of all the Imperial and Royal personages who attended the ceremony. The names of Duc de Chartres' family were also included on the scroll, although none of them were present, owing to the slight indisposition of the Duchess.

THE FOREIGN CLUB.

Club de Residentes Estrangeros.
November 17th.

To the Editor of the STANDARD.

Dear Sir,

Atracted by your notice of the inauguration of the new Club, I called this morning and was much pleased with the general arrangements. Excepting the bad taste displayed in the placing of those extraordinary large mirrors, with funereal ornaments which would lead the stranger to imagine he was entering the premises of a large family murning Establishment, I did not find much to complain of. By all means let us ask the committee to remove these glasses, which have a sort of odour of patchouli and musk, quite out of place with the surroundings of a respectable Club.

I enclose my card and remain your obedient servant.

A Subscriber.

EDITOR'S TABLE.

Yesterday at luncheon hour we received a cablegram from our brother-editor announcing a strain in the relations between fair Austria and the grizzly bear. Affairs in the East of Europe are looking unpleasantly hot, and a general scrimmage over the remains of the Sick Man is on the 'tapis.' The gold market here believes in war: the premium went up like a rocket yesterday, and threatened to go through the roof of the Bolsa.

Everybody in town is anxious to know the results of the general elections at home. If the radicals get in, the change will mark one of the greatest events in the history of England, but it is to be supposed that the Chamberlain party will be less radical in, than out of power.

We beg to thank our old friend Captain Ormiston of the frozen mutton steamer Meath for late London and Continental papers. He was delayed two days off Lobos in the tremendous gale that was even felt here.

Dr. Juarez Celman arrived this morning at Parana. The Governor and all the leading men of the Entre Riano capital went to the mole to meet him and flags were hung from the principal houses to welcome him. A banquet to be followed by a grand ball is on the "tapis."

The popular tragedienne Duse-Cecchi will leave on the 25th for Europe. She will take with her the most pleasant recollections of the B. Aires public.

Austria and Russia, the bosom friends of the Triple Alliance, are rushing into the Balkan muddle. Havas's telegroms smell of villainous saltpetre. The following mems of the numerical strength of the armies of both countries will be read with interest:—

	Russia.	Austria.
Infantry	626,000	175,000
Cavalry	86,000	31,000
Artillery	109,000	28,000
Train	20,000	14,000
	841,000	268,000
Guns	2,278	1,540

Russia has treble the number of men and, in the event of war, a decided superiority over Austria.

The whole town is talking of the concert to come off this day week, on the 25th, under the direction of our indefatigable friend Mr. W. Martin, who, although absorbed in school examinations, finds leisure to organise these pleasant meetings. The concert will be given in aid of the building fund of the B.A. Cricket Club. Tickets can be obtained from members of the Club and at Mackern's library in Calle San Martin. The concert will come off in the Opera House and families should apply early for boxes as they are going off like hot buns.

The many friends of Mr. George Ransom, C. E., will regret to hear that he was accidentally killed on last Wednesday night by a light engine at Vipos station, on the extension line of the Tucuman Railway to Jujuy. Deceased was in the employ of Mr. Lapish, contractor for the iron bridges on the extension.

The Health Board of the Mount have imposed a quarantine of four days on the French packet Senegal. Quarantine on vessels from Brazil will soon become the order of the day, as the hot weather is now in full swing.

Telegrams from Alfalfa, South of Curumalan, announce that a train of the Southern Railway went off the line to day near that station. One of the firemen fell from the engine in the shock, but nobody, happily, was hurt. The train was delayed a few hours.

Marie Laure, the talented French actress has gone to La Plata where she will act in the Apolo theatre with a scratch company.

Mr A Paludan Seedorff, one of the best known men in Buenos Aires, has just returned from a few months' trip to Europe, and we warmly welcome him back. Mr Seedorff visited Norway at the same time as the "Grand Old Man," but had not the extreme felicity of meeting that distinguished individual. He also spent some time in Denmark, his native place, and returns in improving health, we are pleased to say. Mr S. will now resume his important appointment of "minister to the ills that flesh is heir to," so ably attended to during his absence by Mr A Mathiesen.

The following is the result of the Cesarewitch run on the 13th Oct.:—

Mr. H. Bouy's Plaisanterie, Wellingtonia Poetess 1
Mr. Hungerford's Xema 2
Mr. F. Cannon's Postscript 3
Won by two lengths.

The news about the Eastern Question looks most tremendously fishy. Servia and Bulgaria are merely the advanced guards of Austria and Russia, and it is virtually the latter Powers who are going to war. Old Sal. has scored one, perhaps two, somewhere, or Russia would not be so suddenly angry with him. It's to be hoped that old Sal. won't be turned out at the general elections, and the foreign policy thrown into the G. O. M's hands again at what may prove a turning point in the world's history.

General Pedernera, one of the oldest officers in the Argentine army, had a bad apoplectic fit on Monday. We hope to hear of the gallant veteran's recovery.

Oh! oh! oh! Mr. Arana, talented City Chemist, has analysed the famous water in the sewer and finds it far healthier to drink than the average "algibe" water! Here's a revelation. The fact is, contaminated from the "letrinas" the "pozos" are deadly from the same cause, and the pipe water is the only safe water.

The most extraordinary and repulsive sight was witnessed at La Plata on Sunday; nothing less than a trial of strength between a man (an Italian) and two oxen. The man was placed on a horizontal ladder, and all the efforts of the oxen failed to move him. His veins face and neck swelled in the most extraordinary manner during the three attempts of the oxen to pull him after them. At the third attempt they gave up in disgust. The mob cheered the victor in a frenzied manner.

The good steamer Araucania met with a regular burster in her last trip through Magellan's Straits, but weathered it finely. Not so some of her foreign passengers who were frightened to death. One of them, in his terror, disemboweled himself with a piece of glass, and died in great agony. Two others tried to imitate him, but were prevented.

The accounts from Santa Fé are the reverse of rosy. The camps are all scorched up by the long drought, and farmers drawing water from sunrise to sunset. Not a drop of the recent rains fell in Santa Fé.

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

Prospectuses with full particulars on application.

EDITOR'S TABLE

(Continued from 1st page)

Three fires on Monday night: One (an awful affair; see another column) at Barracas; another in a 'tienda' in Calle Cochabamba, and a third, a mere flash in the pan, in the Clinical Hospital. The Barracas catastrophe was a most appalling one. The boiling soap that exploded destroyed three lives in a dreadful manner. It is the old story—ignorant men in charge of the machinery.

The street-sweeping machines are wretched affairs; they only skim the streets, and the brushes seem decidedly seedy already. The loafers, vagabonds and street boys take great delight in chaffing the drivers of the machines who, under the infliction, look as if they would much prefer to drive a hearse.

The Old Gas Company's manager declares that the City Improvement men are the culprits in the sewer explosions bobbery. There appears very little doubt that the pipes have been cut right and left, to facilitate the drainage works. Who's to pay the piper?

There'll be a rise in the price of railway waggons, if smashing goes on at the present rate. On the new Santiago line, the other day, a broken axle resulted in the destruction of half-a-dozen waggons, and on the old Southern line as many more were turned into fire-wood at Azul through a pointsman's slip of the switch. No lives lost; and its all for the good of trade.

Another lift for trade is the fact that the steamer Brenda, or rather her captain, had to pitch a lot of railway materials into the river during the recent gale; and a schooner with maize for the Buffon (some people with a knowledge of Dover French call this steamer the Buffoon) had to do the same. It's all for the good of the fishes.

"I shall teach you to speak properly, and then to write as you speak," said a teacher in the public schools. "Poor Billy Willcox!" said a little voice involuntarily. "What about Billy?" asked the schoolmistress. "Please, ma'am, he speaks through his nose; so he will have to write through his nose."

The Argentino up-cars now go on round Balcarce and the Plaza instead of that ugly turn in Alsina and Chacabuco. A decided improvement.

The Water Board met yesterday to say yes or no about the electric light on their premises at the Recoleta. This light seems to make more headway just now in South America than anywhere else. They seem to have tired of it in Europe.

Those who take an interest in Martin Garcia may or may not be pleased to learn that the last gale did not wash away what is called a mole there. The Italian immigrants would like to see the whole island washed away to save them from the useless and nonsensical fumigation, etc., they have to undergo there. As admitted by the Health Conference in Rome, this kind of thing is all bosh, and the English system of dealing with epidemics the true one.

Edison has perfected a fog-horn that can be heard ten miles, but when it comes to an invention for getting his servant up in the morning, he smiles sadly, and falls to musing on the infinite.

Two decent-looking swindlers missed their "coup" on Monday and were locked up. Both tried the same dodge—ordering goods to be sent by an importer to a retail customer. Importers have been imposed on so often of late by this trick, that, instead of being taken in by strangers, they now, like good Christians, take every stranger of this kind in (by the collar) and hand him over to the police.

Almanacks and Christmas Cards are now coming to the front. There is not so much fizz in the C. C. line as there used to be. "Casi va il mondo." People get tired of everything quickly in this rattle-away century.

Signor Gregorini is to pave a lot of streets. We hope he will lay small stones, and not the Tarpseian rocks to be found in Artes, Florida, Victoria and all the chief streets.

The Indians on the Bermejo are not all dead and gone yet. Two more expeditions to deal with them are on the "tappys."

Our colleagues are harping on the salubrification of the Riachuelo. It's all nonsense, so long as the factories, distilleries, piggeries etc pollute the stream. The London Corporation, with millions sterling at its command, has failed to adequately purify the Thames; and how can the Buenos Ayres Corporation hope to succeed? The Riachuelo is quite too small for all the trade and filth it has to deal with.

Everybody who saw it says that Theodora is a "sell." Half the audience went asleep on both nights. It appears that although it required two nights to get through it, there are not more than three hours actual playing in the piece. The preparations and changes of dress and scenery waste the time.

Mrs. Partington says:—"I haven't any desire to live longer than the breath remains in my body, if it wasn't more than eighty years. I would not wish to be a centurion; and the idea of surviving one's factories always gives me a disagreeable censoriousness. But whatever is to be will be, and there is no knowing a thing will take place until it expires."

An old widower says: "When you pop the question do it with a kind of laugh, as if you were joking. If she accepts you, very well; if she does not you can say you were only in fun."

Important Notice.
I hereby advise the public that I have established a Gymnasium Institute at Calle Florida 406. where I also apply the MASSAGE SYSTEM as studied and practiced at Dr. KELLGREN'S well known institute in London.
This system has given the most surprising results in curing chest and lung complaints, and all maladies caused by the kidneys and joints, and in any way connected with the nervous system. Thus the celebrated SYSTEM of MASSAGE is recommended as a certain cure for rheumatism, asthma, undeveloped muscles, paralysis, disorders in the digestion and in the circulation of the blood, etc., etc.
I have also a special class for the development of the body and muscles.
The following is the time-table I have arranged for the application of the Massage System:
For Gentlemen 8 a.m. to 10 a.m. and 3 p.m. to 5 p.m.
For Ladies 12½ to 2 p.m.
Consultation hours—11.30 a m. to 12.30.
Patients can also make arrangements for the application of the Massage System at their own residences.

CHRISTMAS AND NEW YEAR'S CARDS.
L. Jacobsen & Co have received an immense assortment of the above, being the choicest products of the best makers.
The variety is wonderfully great, and surpasses all former years, not only in brilliancy of colour, but in elegance of design, combining all that is chaste and artistical.
Amongst these pleasing souvenirs of the season are to be found novelties of the most striking character and perfect gems of art, not only calculated to interest for the hour, but to elevate and improve the taste of old and young.
A special vast department, with an extra body of able assistants is exclusively devoted to this branch of the business where a permanent exhibition of these highly esteemed presents will be held till the termination of the season; the assortment, containing valuable artistic cards, hand painted on satin, ivory, Bristol board etc etc, as well as less expensive ones, will be always at hand to choose from.
Parties desiring Christmas cards to be delivered to friends on Christmas Day or New Year's Cards on New Year's Day, can obtain this by giving their orders to us in time, when they will be posted by our London agents at proper period to be in hand on the desired day.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.
Dr J. Collis Browne's Chlorodyne
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.
CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.
The Public, therefore, are cautioned against using any other than
Dr J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.
From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."
Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Notice.

I beg to advise my Customers and the Public in General that finding my Drapery Business increasing, and being unable to devote the requisite attention to the Grocery Department, I have decided to wind-up the latter, and occupy the Premises with the extension of the Drapery Business.

So that any parties indebted to the Grocery, will oblige by settling their accounts as soon as possible.

Taking this opportunity of thanking the public for past favours, and hoping to be still more worthy of them in the future.

I remain
Theirs respectfully
ALBERT GEBBIE.

ON 'CHANGE

Nov. 17th.

Gold	150.80 o/o prem.
Cedulas F	79¾
Cedulas G	83¼

The gold market rose this morning to 151.50, and closed at 150.80 cash buyers. Gold looks firmer than ever. The demand for Montevidean saladeros and those in the Uruguay is beginning to be felt. Montevidean Bank exchange is offering, but no takers. The uncertain telegrams from Europe also affect the market, and the wave of opinion is for the rise.

Before the bell rang the close of the ring we had our code message from our brother-editor in London, but as the cable did not give more than what we already knew, we did not think proper to post a bulletin. The message merely said—"Complications between Austria and Russia threatened." The impression amongst the principal merchants is, that for the present there will be no war between those Powers.

There was a free supply of cash gold, yet nothing can keep down the rising tide. Prices opened at 150.50 cash, rose to 151.50, and closed at 150.80 cash buyers; 190,630 sold. For Saturday 132,000 sold, opening at 150.50, rising to 151 and closing at 150.50. For end of month 425,000 sold, opening at 149.50, rising to 151, and closing at 150. For 31st Dec. 330,000 sold, opening at 148 and closing at 148.50. Total sales, 1,092,521.

Cedulas of the new Series G were again thrown on the market; 128,300 sold cash at 83½-¼, and 8,000 for to-morrow at 83⅜.

At the close of the ring there was a great hubbub. Mr Arriola, by order of the Judge, called an auction of 68 National Bank Shares, which were sold at 139, amidst the most noisy Bolsa applause.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—
For cash 190,630 at 150.50-151-150-150.70 to 150.30-80
For Saturday 132,000 150.50-150-150.70 to 150.80-30
For Nov. 18th 14,911 at 151
For Nov. 30th 425,000 at 149.50-150-150.50 to 151
For Dec. 31st 330,000 at 148-148.50
Sales, 1,092,541
Cedulas—
For cash F 5,400 at 79¾
For cash G 128,300 at 83½-¼-⅜
For Nov. 18th G 8,000 at 83⅜
For Nov. 30th G 15,000 at 83¼
Sales, 156,700
At judicial auction—
National Bank Shares—
For cash 68 at 139

The mail closed to-day and with bills over. In fact it is surprising the rate does not advance more as there are no takers for all the exchange offering.

Capt. Ormiston, Commander of the frozen mutton steamer Meath, was welcomed on 'Change; his mutton cargo is waiting for him. This makes five steamers loading frozen mutton cargoes at present. The trade is growing.

Mr. Grant, contractor of the Rosario and Sunchales Railway, was welcomed; he reports the works going ahead fast the other side of Rosario.

As an explanation of the sudden withdrawal of 5 millions Nat. dollars from circulation by the Provincial Bank last month we may state that 2 millions have been written off as notes lost, destroyed, etc., 1 million withdrawn, and 2 millions exchange passed. This accounts for the sudden diminution in the circulation.

The Prov. Bank discounted freely yesterday over 200,000 nats.

Respecting the much talked of Argentine loan business in London we learn on the very best authority, that until the 25th inst. we shall not know definitely, as that is the day fixed in London for the signing of the papers, and it may happen that those who to-day take such a gloomy look at the market will have reason to change their views then.

The wool market ruled well to-day, and good wools sell fast.

Mr Casey sold the following wools:—

1500 ar.	San Guillermo, E.R., at 109.
2000	Arecifes, 78, 85, 86.
300	Curumalan, 75
500	Heras, 84
700	Lobos 96
500	Lujan, 85
400	Salto, 90.

Dr. Kendall, of London, left to-day in the La Plata; he hopes to be back early next year and to have a better look at the country which has pleased him so much that he purposes investing in some good estancia lands.

Mr Dawney, the 'empresario' of the Rosario Water Works, has opened fine offices in that city, at No 154 Calle Cordova.

Mr O'Dwyer. estanciero, Entre Rios, was welcomed on 'Change; his wool sold to-day in the South market at the splendid price of 109 m/c per ar.

The steamer Count D'Eu from Havre, with a large wine cargo, entered Montevideo to-day.

The fast steamer Sud America leaves to-morrow (18th), taking a mail which ought to be delivered in London on the 8th prox.

Mr. Maldonado of the *Diario* has been named Secretary of the Camara Syndical on the Bolsa.

There was no insurance on the premises burnt down yesterday. We give particulars in another column.

The sale of the Moore property yesterday is the talk of the Bolsa, and has caused a further rise in the values of all first-class city property. One of our leading brokers has already rented from Messrs. Hale & Co splendid offices in the new building.

Yesterday a treaty of Commerce and Navigation between Great Britain and Uruguay was signed in Montevideo by Mr Palgrave, British Minister, and the Oriental Minister of Foreign Affairs.

A large sale of Concordia hides is reported up there at 5.45.

In Salto, B.O., they are paying for saladero 'novillos' 11.50 equal to 17 nats here.

Dr. Marco, sub Sec. of War, left to-day for Mendoza, on a pleasure trip. Mr. R. Lista will act in his place during his absence.

At afterhours the market underwent great changes; gold rose so steadily that at one time a sale of 5,000 was made for the end of the month at 152, but at this figure prices toppled over. Fully 500,000 sold for end month at 5 o'clock 151½, then prices fell to 151, and closed sellers.

It was whispered that to-morrow the *Tribuna Nacional* publishes news from London to the Government that will break the market. Sales made for end of year at 149, and for to-morrow at 151.

Our much esteemed friend, Consul Nordenholtz, formerly German Consul here. arrived to-day in the Hamburg steamer Desterro; also Mr Gustave Lüders, the well-known barraquero; we welcome both gentlemen back to the River Plate.

Many telegrams received this evening from Europe, but nothing fresh about the Servian war. All the letters received by French mail advert to the question.

Havas telegrams this evening are most important; it seems that a battle was fought yesterday and the Bulgarians were completely cut up.

The elections in Great Britain to come off soon; many think that the peace of Europe depends on these elections.

At the end of this month, the large advance made last year on National Bank Shares, through the agency of the Provincial Bank, matures, and two of our leading German houses collect the amount.

House Calle Corrientes Nos. 1218 and 1222 with 25¾ varas front by 77 vs. depth, sold for 30,000 m/n. Seller, Mr. Bustamante; buyer, Mr. John Malcolm.

From the Plaza Once de Setiembre we have the following:—

Pitch Pine—$65 to 67 m/n in Riachuelo. Little demand. No stock.
General Remarks—
Steamers—

Wool coming in more freely a certain amount of activity has been experienced in shipments during the last fortnight. Regular Liners quote 25 francs, and outsiders 20 francs, all in full per Cubic Metre for Bales to Havre, Dunkirk and Antwerp. Should the arrival of tonnage this season not be excessive, rates are likely to be fair.

Sailing vessels—

We have to report 24 charters during the month. At present business is dull and no improvement will set in until the linseed and saladero produce commence to be shipped which will be about the end of December or beginning of January.

The following official returns of the Northern (Tucuman) Railway and the Primer Entre Riano for the month of September will much interest the market, as they show the trade movements, &c.:—

Central Northern, Sept. 1885—
Total earnings 172,504.28 m/n
Passengers 22,271.88
Cargo 145,347.90
Encomiendas 2,237.03
Excess luggage 562.58
Telegraph 1,069.47
Almacenaje 55.22
Special trains 74.55
Rents 885.95
Total expenses 83,186.18
Kilometres working 708
Receipts per kilom. 243.65
Expenses per kilom. 117.49
Net proceeds 126.16
Primer Entre Riano, Oct. 1885—
Total receipts 1,095.66 m/n
Passengers 240.50
Cargo 803.96
Encomiendas 5.40
Excess luggage 30.20
Special trains 14
Various 1.60
The expenses are—
Ways and means 174 m/n
Locomotives 241.08
Workshops 116.08
Carts and waggons 0.75
Traffic 271 52
Directory 301.20

It is thus seen that the expenses are 100.82 in proportion to every 100 of receipts.

Saca-Manchas.

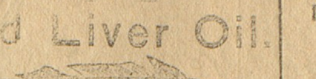

For removing spots of oil, pitch, grease, dirt, paint, spots from silks, carpets, woolen goods, etc, without injury.

When brought in contact with grease it converts it into a soap, which, being sponged out, leaves the goods like new. It never leaves a ring on clothing after removing spots like benzine, alcohol, ammonia etc.

Price $0.50 per box.
